

GVS GAZETTE

July 11, 2016

Edition 1: Red Team

Morocco

Alsalamu Alaykun! Bienvenue! Hello and welcome to Morocco! This summer we will be learning about Morocco. During the first week, we will be taking a virtual tour of Morocco. We will be locating it in on the map and comparing it to Arlington's location; as well as making a topographical map exploring the various landscapes of Morocco. We will be learning about the flag of Morocco, and its symbols, and making the flag. Here's the cool fact of the week about Morocco: In 1777, Morocco was the first country to acknowledge the United State's independence. That fact will keep you cool this summer!

Friendly Reminders

- *Global Village runs July 11-July 29.*
- *Open House is Thursday, July 28th from Noon to 1:00pm.*
- *Students provide their own snacks every day.*
- *PLEASE remember that we are a NUT FREE school!*
- *Please help your child remember his/her nametag every day.*

Portugal

Bem vinda. Welcome to Portugal. This session of GVS we will explore how the people of this European nation have met their needs over the course of time. This week students will create maps showing some of the agricultural products Portugal is famous for producing. Students will craft flags that represent the uniqueness of this country and explore folktales. The Portuguese are credited with crafting a version of Stone Soup. Please ask your child to outline this story for you .

South Korea

An-nyeong-ha-se-yo! Hello from South Korea! On our adventure this week we will be going on a virtual tour of the country. During our visit, students will have the opportunity to learn about the daily lives of people in South Korea. The students will learn about the flag and what the symbols on the flag represent. During this week, the students will have the opportunity to listen and retell a common folktale from South Korea using iPads.

Bolivia | Ms. Hauke

Bolivia

Bueno Días! Welcome to Bolivia, the jewel of the Andes Mountains. This summer in GVS, we will begin by taking a virtual tour of Bolivia, making the country's flag and creating a topographical map to see how diverse this country is. For example, Lake Titicaca is the world's highest navigable lake and South America's deepest lake. Here you can find mountains and tropical rain forests. A fun fact for Bolivia is that about 200 different types of potatoes grow there. I wonder if each one looks and tastes different!

Arlington as a Global Village

Hello and welcome to Arlington! You live in Arlington and have your own unique experiences. This year in GVS we will explore how your perspective of Arlington connects to the perspectives of other students and how our community connects to countries such as Bolivia, Morocco, Portugal and South Korea. In the first week of GVS, we will explore our community virtually and learn symbols of Arlington. We will also look at different types of maps of Arlington to find where elementary schools, historic buildings and iconic structures are located. Visit <http://tinyurl.com/ze3hwm9> to see one of our map examples and locate your elementary school as well as Arlington Traditional School, the summer home for GVS! We will also recreate our own Arlington County Flag. Can you name the building and the flowers on our flag? <http://tinyurl.com/zazag47>

COMPUTER LAB

Follow all the amazing action happening at Global Village this summer by following us on Twitter @GVSatAPS and #ARLGlobalVillage. You can also check out our GVS website at <http://apsglobalvillagesummit.weebly.com/>
